Native American Research Project

Reading Assignment: Using non-fiction resources from the NMS library, your public library, or home you will create a Native American Research Project on a specific tribe. If you have trouble finding a book it is acceptable to use several reputable Internet sources. If you have any trouble, please let me know. Your research must be completed by Friday 10-8-04.

Research Project: After you are done researching your tribe, you will create a project that demonstrates your understanding of the Native American tribe or culture group. All parts of the project should be firmly stapled together. The book project is due on Friday 10-15-04.

Create The Following:

1. **COVER:** Proper heading (as seen above). Write the title and author of the book. Draw a picture in color.
2. **MAP:** Create a map to show the region where your tribe lived. Show and identify mountains, rivers, deserts, and other natural features in the region. Make it colorful.
3. **ILLUSTRATED LIST:** List the food your group ate, draw or cut out pictures to illustrate the list (magazines).
4. **PAPER DOLL:** The doll should show clothing, hairstyle and decorations of your tribe. The doll should have clothing and tools. The doll may be male or female.
5. **WRITE A PARAGRAPH:** Describe the shelter used by your tribe. What was it called? What materials were used? How was it constructed?
6. **VENN DIAGRAM:** Create a diagram to show your tribe is similar and different from another tribe. The Venn will demonstrate a thorough understanding of both similarities and differences.
